

## New Line of PEEK Tubes Available from Ensinger Putnam

### *Putnam, Connecticut –*

Ensinger Putnam, a division of Ensinger Industries announces a line of PEEK tubes. Available in standard and custom materials. Visit [www.putnamprecisionmolding.com](http://www.putnamprecisionmolding.com) and click on “Our Products” for a list of available sizes.

### Reduced Springing in Split Seal Rings

#### Ensinger Putnam Announces TECAPEEK GF30 LSP

We have developed new processes that allow us to produce billets that greatly reduce the springing issue for split seal rings. To find a data sheet on **TECAPEEK GF30 LSP**, visit our website: “[www.putnamprecisionmolding.com](http://www.putnamprecisionmolding.com) and click on “Our Materials”. Need more information?
